Grading and Condition

Superb	Extraordinary item in the finest condition.
Extremely Fine	Outstanding and exceptional quality.
Very Fine	Choice, first-class condition.
Fine-Very Fine (F-VF)	Stamp or cover in sound condition; if a stamp, it is slightly less well-centered than Very Fine but better centered than Fine.
Fine	Sound in all respects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree.
Very Good (VG)	Imperfect centering (stamps) or poor general appearance.

Any stamp faults such as a thin spot, tear, crease etc., will be described at all times. Postally used covers should be expected to have the normal degree of wear associated with them and this wear is not grounds for return. The grade of a cover is independent of the grade of the stamps on it. Covers from the famous Carroll-Hoy correspondence will normally have a small unobtrusive staple hole. In lots containing several items, degrees of condition denote the overwhelming average and examples above and below such condition can be expected.

Terms of Sale

Bidding

I. All bids (whether by floor bidders, mail bidders, or telephone bidders) will have a premium of 18% added to the auction sale price.

II. All bids are per lot as numbered in the catalog unless otherwise announced by the auctioneer at the time of sale. The right is reserved to withdraw any lot prior to sale, to divide a lot, or to group two or more lots, or to act on behalf of the seller. Schuyler Rumsey Philatelic Auctions, Inc. will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Schuyler Rumsey Philatelic Auctions, Inc. is not liable for bidding errors related to live auction internet bidding and/or the loss of internet connection during the live auction.

III. The highest bidder shall prevail; lots are sold at one increment over the second highest bid. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the reoffering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserve the right to refuse any bid believed by him not to be made in good faith.

IV. Consignor has and retains the right to bid personally, or by his duly appointed agent, through the auctioneer, unless the sale is advertised and announced as one restricting such bidding by consignors or their agents.

Payments of Purchases

V. FLOOR BIDDERS. Floor bidders shall furnish the auctioneer their names and addresses prior to bidding on any lot. The name and address of the buyer of each lot shall be registered with the auction house following the sale of each lot. Payment of the whole purchase price shall be made by the floor buyer in such manner as the auctioneer may determine. Special credit arrangements must be made prior to the sale.

VI. MAIL BIDDERS. A successful mail bidder will be notified of lots purchased and must remit payment before the lots are sent. Auction bills are due and payable upon receipt of notification. If buyer's payment is not received within ten (10) days, Schuyler Rumsey Philatelic Auctions, Inc. may resell all lots without notice. Any and all losses incurred as a result of resale will be passed on to the defaulting buyer. Cost of postage, registration, etc. will be charged to buyer. Proof by the auctioneer of receipt of sending at the advised address shall constitute delivery.

VII. DIRECT DRAFTS/TRANSFERS. A successful mail bidder known to us may contact our office at (415) 781-5127 for the information necessary to pay directly into the vendor bank account. Any additional charges resulting from processing payments by this method shall be borne by the buyer. Method of payment should be noted on the bid sheet.

VIII. Title shall not pass to the buyer until full payment is received by Schuyler J. Rumsey Philatelic Auctions, Inc.

IX. All of our lots are sold as genuine. Lots accompanied by recent (within 5 years of sale date) expert certificates are sold “as is” based on the description in the certificate. The aforementioned expertised lots may not be returned under any circumstances including those instances in which subsequent certificates yield conflicting opinions. The accepted authorities for U.S. stamps are the Philatelic Foundation (P.F.), the Philatelic Stamp Authentication and Grading, Inc. (P.S.A.G.) and the Professional Stamp Expertizing Committee (P.S.E.). **In addition, a lot may not be returned because an expertising service grades a stamp lower than the grade stated in the description, or differs from the accompanying certificate.**

X. The Auctioneer must be notified within 5 business days from the date of the auction of any request to place a lot on extension for expertising. All extensions must be paid in full, in advance. There will be no exceptions and no lots may be returned under any circumstances if this term has not been strictly followed.

XI. All lots on extension must be submitted for expertising by the auctioneer exclusively. Each lot is sold as genuine, except those described “as is”, but when, in the opinion of a competent authority acceptable to Schuyler J. Rumsey Philatelic Auctions, Inc., the lot is declared otherwise, the purchase price will be refunded in full. The lot must be received by Schuyler J. Rumsey Philatelic Auctions, Inc. within a period of 21 days from the date of auction. Expenses incurred for purposes of expertising shall be borne by the purchaser except where the lot is found by said competent authority to be materially not as described, in which case the consignor will be responsible for expertising costs incurred. Proof of the inability of said competent authority to express a definite opinion is not grounds for return of an item.

XII. Any lot, description of which is incorrect, is returnable (A) within three (3) days of receipt and (B) if received by Schuyler J. Rumsey Philatelic Auctions, Inc. within twenty-one (21) days from the date of the auction. All disputed lots must be returned intact, in the condition received; no adjustments will be made. The following lots are not returnable: lots containing ten (10) or more items; lots from purchasers OR THEIR AGENTS who had the opportunity to examine them before the auction; items described as having defects or of a quality standard “Very Good” (V.G.) or below; lots with disputed centering or margins when the item is photographed; lots described “as is”.

XIII. JURISDICTION. In the event of any dispute between the auctioneer and bidders, or between any parties requesting inspection of any of the lots and the auctioneer, or between persons offering their lots to be auctioned and the auctioneer, the jurisdiction over the dispute shall be in the City and County of San Francisco, State of California.

XIV. In the event of any dispute, the prevailing party shall be entitled to court costs and reasonable attorney's fees.

XV. The California State Sales Tax - or that of another state as ordered by the laws of such a state (as appropriate) - is payable by buyers liable to tax. See below.

Sales Tax

This sale will be held in California and the buyer will be liable for any applicable sales tax for this auction. Any lots purchased by buyers in California or that of another state as ordered by the laws of such a state are subject to State Sales Tax unless:

1.) You have a verifiable resale license number, which must be on file with us prior to the Auction.

OR

2.) You are not a California resident or that of another state as ordered by the laws of such a state are subject to State Sales Tax and your lots are being shipped to your out-of-state or out-of country mailing address.

ONE OF ONLY TWO SURVIVING NEW ZEALAND USAGES FROM THE P.&O. "COLOMBO" WRECK BEARING STAMPS.

The P&O "Colombo" wrecked on Minicoy Island in the Indian Ocean on November 19th 1862 in a heavy fog. All of the passengers and crew were safely put into boats and were taken care of on Minicoy Island until they were rescued by the "Ottawa" on Nov. 30th. The greater portion of the mail was recovered by divers, and, after careful drying, the letters were forwarded to their destinations. Those for London arriving either December 27th or 31st, 1862.

SG No. **68 var.** . . . . . Estimate $3,000 - 4,000

THE ONLY RECORDED 1862-63 1D LARGE STAR WATERMARK PRINTINGS BEARING THE 1864-67 TRIAL COMB 12½ PERFORATIONS.

According to Odenweller, the comb perforations were introduced in mid-1864 and remained in use in that form until mid to late 1866. When the machine arrived, the current issue was that printed on NZ watermarked paper, with the most used denominations of 2d and 6d being perforated in relatively large numbers. However prior to being put into service, the machine was used experimentally on copies printed on large star watermarked paper. Very few examples with these trial perforations exist and are distinguished by shade and/or plate wear from those that were printed later on large star watermark paper. This strip of four of the 186-63 1d issue are believed to be the only surviving examples of this denomination.

317 ✉ **1862, Queen Victoria "Chalon Head", 1s Deep Green, Perf 13,** Large Star watermark, in combination with **1862, 1d carmine vermilion + 3d brown lilac, horizontal pair and single** (69+74) paying the 1sh registry plus 10d rate on registered cover to **Langholm, Scotland**, canceled by barred oval handstamp with matching "**Clutha Ferry**, Fe 11, 64" origin cds on reverse, red "London, Registered, 12 Ap, 64" entry date stamp with additional circular "Registered" handstamp, reverse with transit and "Langholm, Ap 13, 1864" receiving postmark; cover edge wear and nick with part of flap lifted to show stamps folded over at top, **Fine,** a very rare registered usage to Scotland from Clutha Ferry. Scott No. 20a.
SG No. **79** . . . . . Estimate $750 - 1,000

The Clutha Ferry Post Office, in Otago, was only open between 1858 and 1865. This cancellation is unrecorded by Wooders and is quite rare.

AN EXTRAORDINARY ON COVER USAGE OF THE 1863 1D ISSUE ON PELURE PAPER - ONE OF TWO REPORTED ON COVER EXAMPLES AND A GREAT CLASSIC NEW ZEALAND RARITY.

With the relatively small demand for the 1d denomination, coupled with the brief use of the pelure paper issue, it is quite likely only a single small printing was made. Pairs of the 1d stamp were used when the 2d was not available or when it was not convenient. This letter took two days from Wanganui to Wellington, probably an overland route instead of the normal sea route for most mail.

Scott No. 32.
SG No. **115** . . . . . Estimate $500 - 750

Russell, in the Bay of Islands at the northern semi-tropical area of the North Island, was the first major settlement and used by whaling ships from a number of countries before New Zealand became a colony of Great Britain. This cover pays the newly established rate of 1 shilling via San Francisco to the whaling port of Edgartown, on the third of 13 sailings intended to take advantage of the Trans-Continental Railway. It traveled on the "Wonga Wonga" to Honolulu and continued on the "Ajax". It is the only known example that paid the rate solely with 2d stamps.

In 1866, they began to expand westward and transferred their headquarters from Kansas City to Junction City, Colorado. By 1867, the two entrepreneurs had established a route from Missouri to California over the Santa Fe Trail and changed the name to the Barlow and Sanderson Company. The company continued to grow in Colorado, becoming the largest stage line in the area and in 1874, the headquarters moved to Granada, Colorado. Two years later, despite rumors of bribery and corruption within the company, the stage line continued to expand. However, by 1878, Bradley Barlow withdrew and the name of the company changed to J.L. Sanderson and Co. Overland Stage and Express Line.

THE ONLY RECORDED WELLS FARGO & CO. EHRENBERG USE.

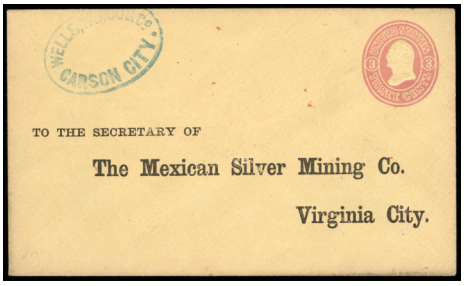

The winter snows of 1868 brought devastating spring floods to the Colorado River and interrupted the easy steamboat service La Paz had enjoyed. The heavy river flow scoured the mainstream of the Color River so deeply that steamers could no longer gain access to the town of La Paz by the shallow La Paz slough. Efforts to link La Paz to the mainstream nearly two miles away by a corduroy wagon road proved unsuccessful. Such isolation from steamboat traffic marked the rapid decay of La Paz as the principal supply point on the river. In a very short time the firm of Gray & Co. dissolved. The town's next largest mercantile firm, J. Goldwater & Bro., built a new store and warehouse on more solid ground near the east anchore of the Bradshaw Ferry six miles to the south. Thus began an exodus from La Paz and the conversion of the scattered adobes and jacals of Olive City and Mineral City into a new thriving community that Mike Goldwater - grandfather of Arizona's U.S. Senator Barry Goldwater - decided to call Ehrenberg for a German friend who had been murdered by Indias in 1866. By 1871, there were only two Wells Fargo offices in Arizona Territory - at Ehrenberg and Arizona City (Yuma).
