Grading and Condition

Superb	Extraordinary item in the finest condition.
Extremely Fine	Outstanding and exceptional quality.
Very Fine	Choice, first-class condition.
Fine-Very Fine (F-VF)	Stamp or cover in sound condition; if a stamp, it is slightly less well-centered than Very Fine but better centered than Fine.
Fine	Sound in all respects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree.
Very Good (VG)	Imperfect centering (stamps) or poor general appearance.

Any stamp faults such as a thin spot, tear, crease etc., will be described at all times. Postally used covers should be expected to have the normal degree of wear associated with them and this wear is not grounds for return. The grade of a cover is independent of the grade of the stamps on it. Covers from the famous Carroll-Hoy correspondence will normally have a small unobtrusive staple hole. In lots containing several items, degrees of condition denote the overwhelming average and examples above and below such condition can be expected.

Terms of Sale

Bidding

I. All bids (whether by floor bidders, mail bidders, or telephone bidders) will have a premium of 18% added to the auction sale price.

II. All bids are per lot as numbered in the catalog unless otherwise announced by the auctioneer at the time of sale. The right is reserved to withdraw any lot prior to sale, to divide a lot, or to group two or more lots, or to act on behalf of the seller. Schuyler Rumsey Philatelic Auctions, Inc. will execute bidding instructions on behalf of clients, but will not be responsible for any errors in the execution of such bids. Schuyler Rumsey Philatelic Auctions, Inc. is not liable for bidding errors related to live auction internet bidding and/or the loss of internet connection during the live auction.

III. The highest bidder shall prevail; lots are sold at one increment over the second highest bid. Should any dispute arise between bidders, the decision of the auctioneer as to the successful bidder and the reoffering or resale of the lot under dispute shall rest entirely on the judgment of the auctioneer. The auctioneer shall regulate the bidding and reserve the right to refuse any bid believed by him not to be made in good faith.

IV. Consignor has and retains the right to bid personally, or by his duly appointed agent, through the auctioneer, unless the sale is advertised and announced as one restricting such bidding by consignors or their agents.

Payments of Purchases

V. FLOOR BIDDERS. Floor bidders shall furnish the auctioneer their names and addresses prior to bidding on any lot. The name and address of the buyer of each lot shall be registered with the auction house following the sale of each lot. Payment of the whole purchase price shall be made by the floor buyer in such manner as the auctioneer may determine. Special credit arrangements must be made prior to the sale.

VI. MAIL BIDDERS. A successful mail bidder will be notified of lots purchased and must remit payment before the lots are sent. Auction bills are due and payable upon receipt of notification. If buyer's payment is not received within ten (10) days, Schuyler Rumsey Philatelic Auctions, Inc. may resell all lots without notice. Any and all losses incurred as a result of resale will be passed on to the defaulting buyer. Cost of postage, registration, etc. will be charged to buyer. Proof by the auctioneer of receipt of sending at the advised address shall constitute delivery.

VII. DIRECT DRAFTS/TRANSFERS. A successful mail bidder known to us may contact our office at (415) 781-5127 for the information necessary to pay directly into the vendor bank account. Any additional charges resulting from processing payments by this method shall be borne by the buyer. Method of payment should be noted on the bid sheet.

VIII. Title shall not pass to the buyer until full payment is received by Schuyler J. Rumsey Philatelic Auctions, Inc.

IX. All of our lots are sold as genuine. Lots accompanied by recent (within 5 years of sale date) expert certificates are sold “as is” based on the description in the certificate. The aforementioned expertised lots may not be returned under any circumstances including those instances in which subsequent certificates yield conflicting opinions. The accepted authorities for U.S. stamps are the Philatelic Foundation (P.F.), the Philatelic Stamp Authentication and Grading, Inc. (P.S.A.G.) and the Professional Stamp Expertizing Committee (P.S.E.). **In addition, a lot may not be returned because an expertising service grades a stamp lower than the grade stated in the description, or differs from the accompanying certificate.**

X. The Auctioneer must be notified within 5 business days from the date of the auction of any request to place a lot on extension for expertising. All extensions must be paid in full, in advance. There will be no exceptions and no lots may be returned under any circumstances if this term has not been strictly followed.

XI. All lots on extension must be submitted for expertising by the auctioneer exclusively. Each lot is sold as genuine, except those described “as is”, but when, in the opinion of a competent authority acceptable to Schuyler J. Rumsey Philatelic Auctions, Inc., the lot is declared otherwise, the purchase price will be refunded in full. The lot must be received by Schuyler J. Rumsey Philatelic Auctions, Inc. within a period of 21 days from the date of auction. Expenses incurred for purposes of expertising shall be borne by the purchaser except where the lot is found by said competent authority to be materially not as described, in which case the consignor will be responsible for expertising costs incurred. Proof of the inability of said competent authority to express a definite opinion is not grounds for return of an item.

XII. Any lot, description of which is incorrect, is returnable (A) within three (3) days of receipt and (B) if received by Schuyler J. Rumsey Philatelic Auctions, Inc. within twenty-one (21) days from the date of the auction. All disputed lots must be returned intact, in the condition received; no adjustments will be made. The following lots are not returnable: lots containing ten (10) or more items; lots from purchasers OR THEIR AGENTS who had the opportunity to examine them before the auction; items described as having defects or of a quality standard “Very Good” (V.G.) or below; lots with disputed centering or margins when the item is photographed; lots described “as is”.

XIII. JURISDICTION. In the event of any dispute between the auctioneer and bidders, or between any parties requesting inspection of any of the lots and the auctioneer, or between persons offering their lots to be auctioned and the auctioneer, the jurisdiction over the dispute shall be in the City and County of San Francisco, State of California.

XIV. In the event of any dispute, the prevailing party shall be entitled to court costs and reasonable attorney's fees.

XV. The California State Sales Tax - or that of another state as ordered by the laws of such a state (as appropriate) - is payable by buyers liable to tax. See below.

The James Macdonald Collection North West Pacific Islands & Papua

James Macdonald had two main passions that motivated his life - Nature and Philately - beginning in his early childhood years growing up in Northern Canada and continuing until he peacefully passed away in Chicago in 2024 at age 84 after two years with cancer. Jim's father, an avid outdoorsman, had instilled in Jim a deep respect for nature and protecting the environment. He also encouraged Jim to appreciate the unique beauty in stamps, and Jim started collecting at an early age. Through his college years his educational pursuits included studying nature, the environment, and peoples of various cultures around the world eventually leading him to become a Professor of Anthropology at Northeastern Illinois University in Chicago. During his academic work in physical and cultural anthropology his childhood affinity for collecting stamps from around the world grew exponentially, and he became fascinated with exploring the cultures of the Northwest Pacific Islands while at the same time examining and collecting unusual and rare NWPI stamps.

Over the decades his stamp collection continued growing as did his field and volunteer work in the Chicago River area - protecting and cleaning up parks, coordinating nature walks, and organizing teams of neighbors for work days in the parks. The City of Chicago recognized his outstanding contributions to the environment with several awards and proclamations during his lifetime, and after he passed away named a significant portion of N. Keeler Avenue as "honorary James "Jim" Macdonald Way". The photo shows Jim holding his college picture, superimposed on the newly dedicated street sign from a ceremony in September 2025. Jim loved nature and the environment and collecting stamps from around the world. He was a true humanist and helped to make the world a better place. *Note: Please see the Collection section for a fine array of balance lots and collections. Additionally, a few select rarities will be included in our Boston 2026 auction to be held in May.*

Benjamin Coates (1808-1887) was among a certain group of Philadelphia Quakers to become deeply involved in philanthropy, particularly those efforts dealing with abolition and education. He was a member of several organizations, including the Friends Freedmen, the Pennsylvania Abolition Society, the Union Benevolent Association, the Institute for Colored Youth and others. The philosophical inclinations of Benjamin Coates were shaped in part by the abolitionist networks of his day. Coates was convinced that a new colony in West Africa, populated by black Americans, was the best strategy for ending slavery and giving African Americans a positive fresh start. In this regard, Coates was involved with the American Colonization Society, an organization which established the colony of Liberia to resettle free black Americans in West Africa Coates forged an alliance with African American Joseph Jenkins Roberts, who emigrated to Liberia in 1829, and became a symbol of the personal, financial, and economic opportunities that could be had in Africa. Coates propounded the abolition of slavery as the catalyst for worldwide change, viewing slavery as a problem that plagued his religious community, his business relationships, his country's political system, the world economy and his Quaker conscience. Benjamin Coates was the author of "Cotton Cultivation in Africa, Suggestions on the Importance of the Cultivation of Cotton in Africa, in Reference to the Abolition of Slavery in the United States…" in 1858.Please visit our website for additional images.

Arnold is also detailed. I am to command the Escort for Capt. McClellan's party. I sail for Oregon on Wednesday morning. There we organize the party and start for the Cascade Mountains where we are to find, if possible, a pass for the Railroad. We shall return to Columbia Barracks in November or December and report to Congress by February. Arnold is to command the Escort of Lieut. Saxton's party, and he will proceed to St. Mary's Village at the foot of the Rocky Mountains and wait there for Gov. Stevens' party which will cross the plains to meet him there. Of course it is a command of some responsibility for so young an officer, but I hope to acquit myself with credit. I will write you from Columbia Barracks if possible before we start. I have two horses to ride. My whole command will be mounted and I shall be in the Oregon jargon-hatiah (big Chief). As I want the Providence and R. I. people to keep us in some remembrance, you will confer a favor by getting the Journal to notice the fact that Lieut. Arnold is detailed by direction of the Secretary of War to command the Escort of one party of the Survey, and that Lieut. Sylvester Mowry 3d has been detailed to command the Escort which accompanies the expedition to explore a pass in the Cascade Mountains for the Great Pacific Rail Road. Get it done on your own responsibility, Ned. Give my regards to Mrs. B. and tell her I will try and get her some furs-such as are not often seen in R. I. I am going through Portland and hope to see Ned. Write as usual to San Francisco and believe me here or in the Rocky Mountains or anywhere else.*"; original cover addressed to Providence, R.I., with "San Francisco, Paid 6, Jun 24" cds and additional pencil "6" rating, **Very Fine,** a wonderful early letter at the outset of the Capt. The expedition's goal was to assess the region's suitability for both railroad construction and settlement. While the specific route McClellan surveyed was not ultimately used for a major Pacific railroad, his work and the survey's findings contributed to the understanding of the region's resources like timber and coal.

Milgram No. **401** . . . . . Estimate $300 - 400

The "Eliza Battle" was a steamboat operating on the Tombigbee River between Columbus, Mississippi, and Mobile, Alabama, during the 1850s. Launched in New Albany, Indiana, in 1852, this side-wheeled paddle steamer was constructed with a wooden hull and was 316 tons.

On March 1, 1858, the "Eliza Battle" was destroyed by fire near Pennington, Alabama, in what became the deadliest maritime disaster in the history of the Tombigbee River. The fire claimed the lives of approximately thirty-three people out of about sixty passengers and a crew of forty-five.

Around 2 a.m. on that fateful morning, about 32 miles downstream from Demopolis and near Beckley's Landing, flames were discovered engulfing cotton bales on the main deck. Fueled by strong winds, the fire quickly spiraled out of control. The passengers, trapped by the flames and unable to access the lifeboats, were forced to leap into the icy river in their nightclothes. Some managed to stay afloat by clinging to cotton bales. Rescued by the Magnolia and local residents, many survivors were retrieved from treetops along the flooded river. Tragically, all the casualties were due to drowning or exposure to the severe cold.

There are only four total strikes of the type 3 cancel known, two off-cover and two on-cover. The two recorded 3¢ 1857 Cumberland precancel covers are:
1) Nov. 6, precancel ties #25 on faulty cover to Postmaster at Acton Me. The cover offered here. (Illustrated by Milgram in Chronicle 206, p. 93, fig. 5)
2) Nov. 6, updated to Nov. 10, precancel ties #25 on cover to Postmaster at Summer Me. (Sold in Rumsey Sale #76, Lot 59, HP $17,000)

Horace I. Gray was a "Card and Job Printer" located in Cumberland, Maine offering a variety of stationery merchandise. All of the known Cumberland precancels are on cover from only two firms, that of Gray himself and the Portland firm of Sanborn & Carter. It is suggested that Gray did the printing for Sanborn & Carter, together with the mailing, thus accounting for the Cumberland precancel on the Portland firm's mail. Five distinct types of the Cumberland precancel are known and are detailed in an article by Dr. James W. Milgram in Chronicle 206, May 2005, pages 90-96.

ONE OF THE MOST ICONIC COVERS OF THE 1851 ISSUE AND THE EARLIEST RECORDED USE OF THE 1¢ 1851 ISSUE FROM THE WEST COAST.

This cover represents an exceptionally rare use of the 1¢ 1851 Issue to pay the new 6¢ prepaid rate, effective July 1851, for distances exceeding 3,000 miles. It was dispatched on the very first sailing from San Francisco to Panama following the arrival of the new stamps in California.

The first shipment of the 1851 Issue reached the West Coast aboard the Pacific Mail Steamship Company steamer "Oregon," which arrived in San Francisco on September 18, 1851. The earliest documented West Coast use of the new issue is a cover bearing a pair of 3¢ Orange Brown stamps, postmarked at Sacramento on September 30, 1851.

Mail postmarked in San Francisco on October 1, 1851, was carried on the return voyage of the "Oregon," departing that same day and arriving in Panama on October 20. The correspondence then crossed the isthmus and continued from Chagres to New York aboard the United States Mail Steamship Company steamer "Ohio," which sailed on October 25 and reached New York on November 5. The present cover traveled on that sailing.

Noted philatelist Stanley B. Ashbrook regarded this and other 1851 Issue covers bearing the same October 1 postmark as "first day" uses from California.

A VERY RARE COMMERCIAL USE OF THE 5¢ CARMINE ERROR, PERF 10, WHICH SERVED AS PAYMENT OF THE 2¢ RATE.

The plate containing the 5¢ transfer errors escaped detection during production and inspection, and the resulting stamps were released to the public in early 1917. A limited number of sheets were perforated gauge 10 (Scott 467), followed by a larger printing with the new 11-gauge perforations (Scott 505), all distributed through post offices.

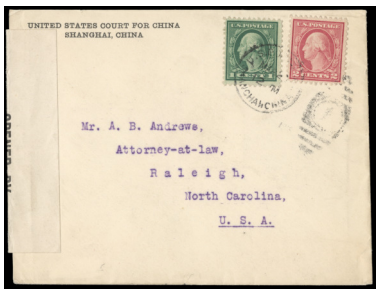

On May 2, 1917, the United States Post Office Department, through the Third Assistant Postmaster General, issued a printed notice advising postmasters of the error and ordering the recall of the error sheets.

According to the updated census compiled by Kevin Lowther and published in The United States Specialist (2012, Issue 993), only 18 covers or large pieces are recorded bearing the 5¢ Carmine error, Perf 10 (Scott 467). The present example represents a genuine non-philatelic commercial use.

1513 o **1¢ Blue, Type Ib,** position 8R1E, blue town cancels, clear to large margins, clear sharp impression with rich bright plate one early color, **Extremely Fine,** a wonderful sound full margin example of the rare 1851 1¢ type Ib; with 2007 P.S.E. certificate **Graded (XF 90, SMQ $32,500)**.
Scott No. **5A** $11,000

A STUNNING EXAMPLE OF THIS RARE STAMP WITH POSITION 8R1E BEING ONE OF THE TWO FINEST EXAMPLES SHOWING THE TYPE.

Type Ib was produced only as an imperforate stamp. Six positions on Plate 1 Early provided stamps qualifying as Type Ib - Positions 3-6R and 8-9R - distinguished by the complete design at top and nearly complete design at bottom. When first entered on the plate, these six positions (as well as 7R1E) had the complete design at top and bottom. However, small portions of the bottoms were burnished away, with the exception of 7R. Positions 6R and 8R had less of the bottom erased than the other Type Ib positions, and for this reason they are more desirable examples of the type.

A Type Ib with large margins all around is a great rarity, particularly in sound condition.

It may be difficult to predict correctly what parties may be in the field two years hence. The party lines between the Slave States and Free States seem now pretty clearly marked out and defined. The question heretofore has been as to the right of holding the Negro in Slavery but during the last session of Congress, the right of the white man to self government has been seriously disputed; and the President, in his Kansas Message, affirms that Slavery exist in Kansas as much as in South Carolina or Georgia; and a Slavery Constitution is recommended for Kansas without their consent. If these measures can be carried through and Kansas made a Slave States by the Military Power of the U.S. the Slave power will have accomplished its object and shown that property in Slaves is in no respect different from that of any other kind of property and that they have the right to emigrate and carry their Slaves into any State or Territory, and there hold them as slaves, and be protected in the quiet enjoyment of their slave property by the strong arm of the Government. But the Free State have heard the clanking of this chain before the last link was forged and welded, and they will arise in their mighty power and grind to to powder and cast it in the water and make the slave power drink the water. In 1860, there will be a leader around whom the Republican Party will Rally and support, who will be triumphantly elected President of these United States. There will also be another leader of the Slave Power who will combine the support of the Slave States, and who will be doomed to defeat. These will constitute the two great parties, and in my humble opinion, the only two. But be that as it may and enlightened people will not long sustain a political party, who to effect a wicked and corrupt object, abandon every principle of reason and justice, and act at defiance the inalienable right of man.*; some cover edge wear, **F.-V.F.,** a fascinating letter which virtually predicts the outcome of the coming Civil War.

SMS "Geier" was an unprotected cruiser of the Bussard class built for the German Imperial Navy (Kaiserliche Marine) and commissioned in 1895. "Geier" was still en route to the German base in Tsingtao when war broke out in Europe in August 1914. She slipped out of still-neutral British Singapore days before Britain declared war on Germany and crossed the central Pacific in an attempt to link up with Maximilian von Spee's East Asia Squadron. While at sea, she captured one British freighter, but did not sink her. In need of engine repairs and coal, "Geier" put into the neutral United States port at Honolulu, Hawaii in October 1914, where she was eventually interned. After the American entrance into the war in April 1917, the US Navy seized "Geier" and commissioned her as USS "Schurz" and placed her on convoy duty.
